PLASTIC AND COSMETIC SURGERY

Clinical Facials

See dramatic improvement and visible changes in your skin. Treatments are targeted to even pigment tone, encourage skin hydration and eliminate fine lines. Clinical facials promote rapid recovery after cosmetic facial surgery by working to heal and calm the skin. Our clinical skin care therapist partners with Dr. Johnson for both before and post-procedure skin care. A series of treatments and a home care regimen specific to your skin care needs will be prescribed. You'll receive a personal consultation and a sampling of products to help you get started on proper care after your procedure. Our therapist can also offer anti-aging treatments for the face, neck and hands.

Clinical Microdermabrasion

This non-invasive treatment is designed to restore clarity and texture to the skin and reduce fine lines. Skin tone is revived, producing a younger, healthier appearance. Treatments will enhance results from facial rejuvenation, such as a face lift. Packages are available to maintain healthy and radiant skin that lasts.

Dermaplaning

For a treatment as smooth as the results you'll feel, dermaplaning gently exfoliates the surface layer of your skin. A titanium facial scalpel delicately removes non-regenerative skin cells and villus hair instantly transforming your skin to a velvety touch.

Anti-aging Peels and Facial Treatments

Prolong your skin's youthful appearance with our clinical skin peels and facial treatments. Facial peels exfoliate the non-regenerative layers of skin to stimulate collagen and elastin, leaving you with a refreshed, healthy glow. Salicylic based peels are highly effective in controlling acne and calming chin blemishes. Treatments are graduated and matched to your skin type.

Skin Care and Cosmetology

Skin wellness and skin care provide the cornerstone to preserving youth and vitality in your appearance. Your skin regimen should aggressively combat photo aging and environmental stresses on a daily basis. Our staff will assist you in all your skin care needs. From basic to advanced conditions, we can balance, restore and regenerate the skin's natural beauty at any age. Our aesthetic service is available following facial rejuvenation to accelerate your recovery and lessen downtime. Cosmetics can supply the first line of defense while enhancing outward appearance and confidence.

Clinical Skin Analysis

Essential skin analysis provides an introduction to the basics of skin wellness defined by skin type and environmental challenges that you confront daily. Ultraviolet mapping identifies problem areas, followed by skin conditioning recommendations to promote protection and ensure youthful, beautiful skin that lasts.

Facial Shaping

Discover the benefits of subtle improvements to facial shape and form. Though shaping is often combined in face lifting procedures, it can stand alone to improve facial aesthetics without surgery. Botox Cosmetic products can lift and shape the brow, or tame defined frown lines. Injectable filler products provide volume to enhance the lips, eliminate marionette or laugh lines, or soften other deepened lines.

Botox Cosmetic®

Fight the look of what ages you most. Reduce facial stress lines and reflect a more positive you. Botox Cosmetic provides up to six months relief from overactive brow, forehead creases, crow's feet or lid lines, and even unsightly bands in the neck. Treatments can involve a total facial, or just targeted problem areas such as frowns, foreheads and eyes.

Facial Contouring

Advanced facial shaping by Dr. Johnson utilizing a non-permanent injectable gel or hyaluronic filler will instantly restore volume and make unwanted lines virtually disappear. Fillers provide structural support where needed: along lid lines, in deep smile lines or in downturned corners of the mouth. Dr. Johnson will make recommendations to soften and restore volume with immediate results and fast recovery.
